Press Note.

SUPPLY OF RICE TO THE CONSUMERS IN THE STATE THROUGH GOVERNMENT.

In Press Note dated 12th July 1954, it has already been announced that the Government of India have issued orders decontrolling rice throughout the country and that there is no restriction on its movement in the Indian Union.

In view of large stocks of rice available in the open market at reasonable prices and consequent low off-takes in respect of rice held by Government, it has been decided to hand over a major portion of stocks of rice held by this Government, to the Central Government Reserve. It is therefore announced for the information of the public that on or after 1st October 1954, Government's commitments to supply rice and other food grains to consumers intending to draw supplies from Government resources will cease and such consumers will have to obtain their requirements from open markets.

(P. N. No. 52, 10th September 1954.)

Press Note.

REGISTRATION OF BOILERS.

The Indian Boilers Act, 1923, lays down that all boilers exceeding 5 gallons in capacity should be got registered in accordance with the provisions of the Act. It has come to the Notice of Government that certain manufacturing firms have been supplying to the public, miniature boilers with incorrect information that their capacity is less than 5 gallons and that these boilers do not come under the purview of the Indian Boilers' Act for purposes of registration. It is ascertained that in some cases, such information furnished by manufacturers is not true and that the boilers are found to be more than five gallons in capacity. Such boilers are not being offered for registration and even if so offered, would not be registered under the Indian Boilers, Act, 1923, as their construction is not in conformity with the conditions laid down for registration of Boilers.

Government wish to impress on all concerned that whoever possesses any boilers of the kind mentioned, should refrain from using them until and unless they have been duly got registered under the Act, failing which they will be liable for prosecution under the said Act. When purchases of such miniature boilers are contemplated, the intending purchasers are advised to consult the Chief Inspector of Steam Boilers to ensure that the boilers do not come under the Indian Boilers, Act, 1923, and if they do, that the materials and the construction of the boilers conform to the Indian Boiler Regulations and will be acceptable for purposes of registration under the Indian Boilers, Act.
